PFAS Declaration of Compliance

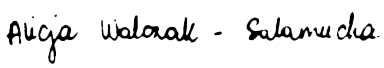

Unisystem declares, under its sole responsibility, that the products listed in Annex A comply with the requirements of the proposal for the restriction of per- and polyfluoroalkyl substances (PFAS) under Regulation (EC) No 1907/2006 (REACH), as published by the European Chemicals Agency (ECHA).

The products also comply with the PFAS-related restrictions already in force in the European Union, including those for PFOS, PFOA, PFHxS and their salts and related compounds under Regulation (EU) 2019/1021 on persistent organic pollutants.

As the EU PFAS restriction is still under evaluation, Unisystem monitors its progress and will review this declaration once the final requirements are adopted.

This declaration is based on declarations of compliance received from our manufacturing partner and its suppliers. Supporting documentation is retained by Unisystem and is available on request.

On behalf of Unisystem Sp. z o.o.
